

ServiTech, Inc.

Agronomy Service Manager (ASM)

Dan Morgan

The screenshot shows the 'Create New Purchase Order' form in the ASM application. The form is titled 'Create New Purchase Order' and includes a sub-header 'Fill out the form below to create a new purchase order.' The form is divided into two main sections: 'Producer and Customer Assignment' and 'Agronomist Assignment'. The 'Producer and Customer Assignment' section includes a 'Producer*' dropdown menu with a 'Select Producer...' placeholder, a '+ Add Customer' button, and a 'Total: 0.0%' label. The 'Agronomist Assignment' section includes an 'Agronomist 1*' dropdown menu, a 'Responsibility %' input field with a value of 100.00, and an 'Amount' input field with a value of 0.00. A red warning message 'Names changed or redacted to protect sensitive information.' is displayed at the top of the form.

The screenshot shows the 'Administration — POs' page in the ASM application. The page is titled 'Administration — POs' and includes a sub-header 'Manage picklists and system data'. The page features a navigation bar with links to 'POs', 'Customers', 'Agronomists', 'Service Types', 'Grid Sizes', 'Coop Names', 'Crops', and 'Legal'. The main content area is titled 'Purchase Orders Management' and includes a search bar, a filter dropdown set to 'All', and buttons for 'Export...', 'Unarchive Selected (0)', and 'Archive Selected (0)'. Below the search bar is a table with the following data:

Finalized	PO #	Producer	Agronomist	Customer	Total Cost	Created	FY	Discount	Status
☐	#120	Arnold Ziffel	Hank Kimball	Arnold Ziffel		7/7/2025	2025	Okay	Active
☐	#121	Kate Bradley	Hank Kimball	Kate Bradley		7/7/2025	2025	Okay	Active
☐	#122	Fred Ziffel	Hank Kimball	Fred Ziffel		7/7/2025	2025	Okay	Active
☐	#123	Oliver Douglas	Hank Kimball	Oliver Douglas		7/18/2025	2025	Check	Active

Project Overview

The product:

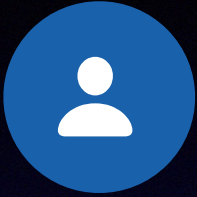

Agronomy Service Manager (ASM) is a mobile-friendly, cross-platform web app for ServiTech agronomists to write purchase orders to perform in-field and other services for farmers and cooperatives.

Project duration:

June–September 2025

Project Overview

My role:

Software Designer ServiTech, Inc.

Responsibilities:

- Interviewed key stakeholders and determined feature set
- Defined the database schema
- Designed and coded entire app using Replit's agent.
- Mapped internal database to external API for billing with legacy accounting system

Final Tablet UI

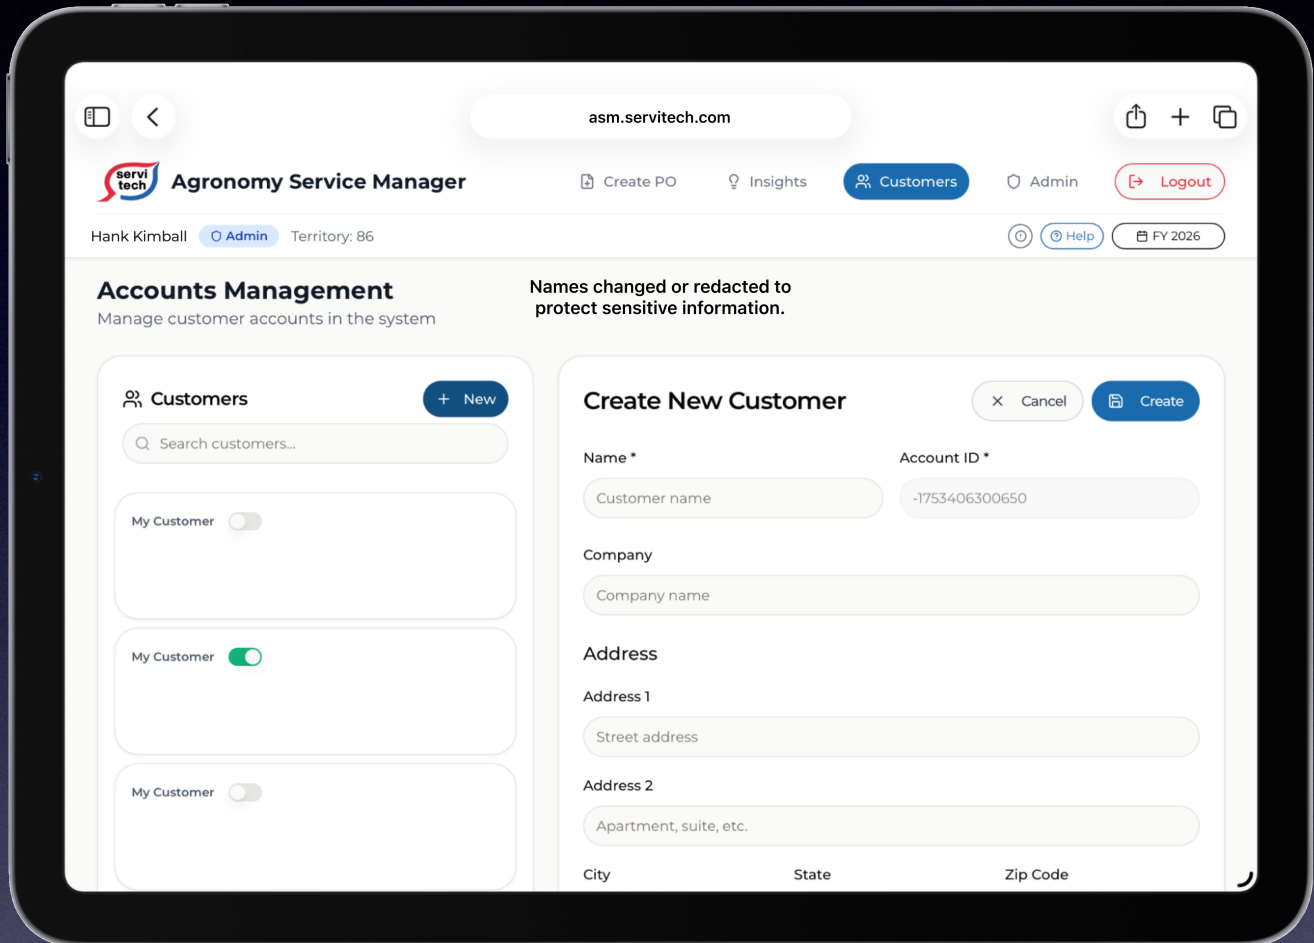

Create New Purchase Order

The Create PO view can handle two or more billing customer splits, agronomist responsibility splits, and an unlimited number of services to be performed on one PO.

Details like legal description, crops, line item discounts and overall PO discounts can be entered and handled with ease.

Final Tablet UI

Accounts Management

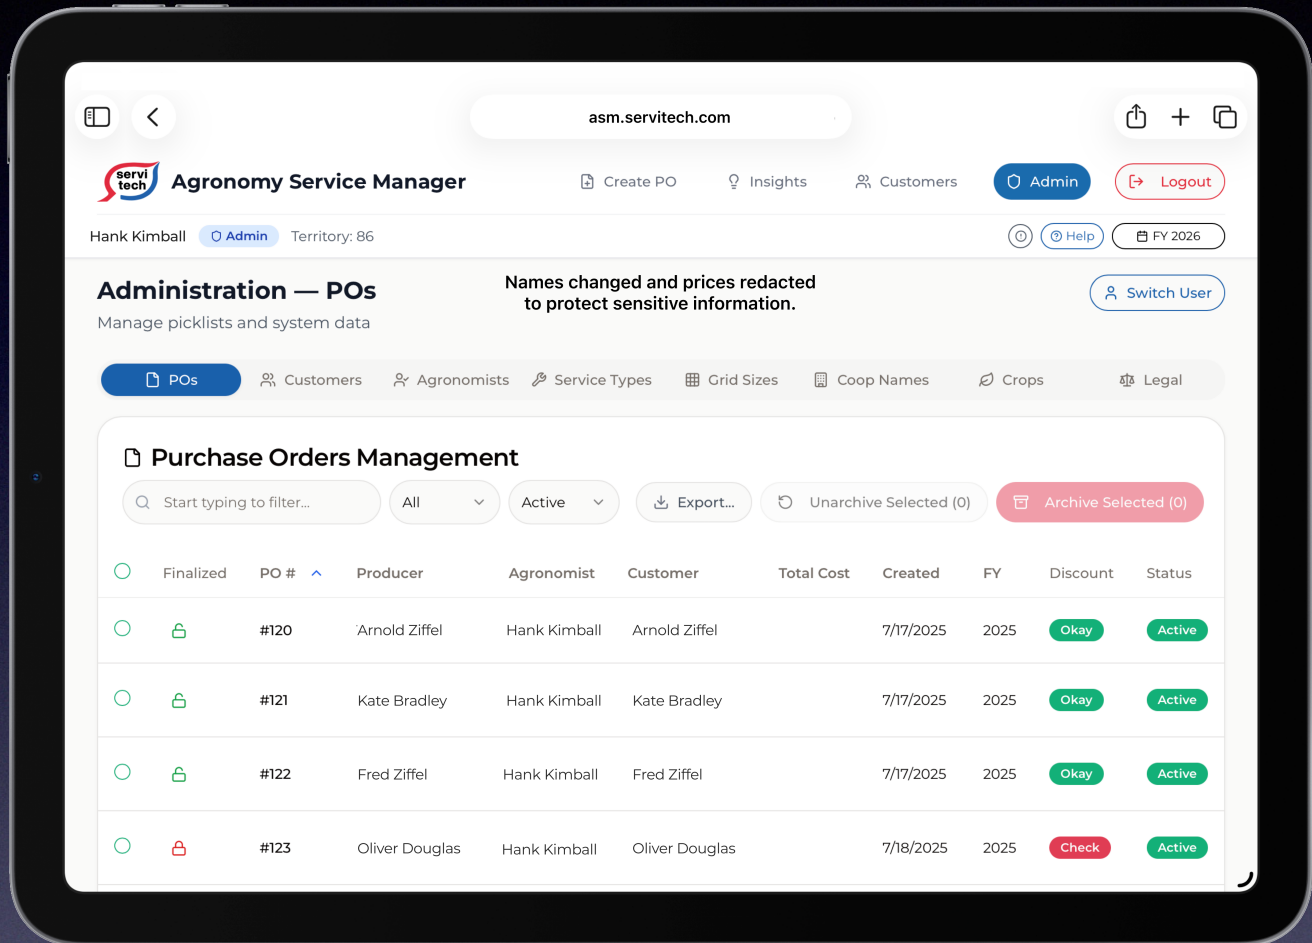

The Accounts Management view handles the creation and editing of customer accounts. From here the user can add their own customers to their “Mine” list for easy access in the pulldown menus.

(Customer cards are blank to protect sensitive customer information.)

Final Tablet UI

Administration—POs

The Admin view is where a manager or admin can review POs created by any employee among other restricted tasks.

Any PO that violates a company policy (too large of a discount, for example) are flagged for review.

Final Tablet UI

Administration—Review PO

The image shows a tablet displaying the 'Agronomy Service Manager' app. A modal titled 'Administration—Review PO' is open, showing details for Purchase Order #123. The modal includes a header with the order number and total, a main section with producer, customer, and agronomist information, a service line items table, and a summary table at the bottom.

Purchase Order #123
Total: \$

FY 2025
Created 7/18/2025
