OVERVIEW

01

ServiTech, Inc. was founded on June 10, 1975, when three farmer-owned cooperatives in southwest Kansas recognized the need for area producers to access advanced technical information. As a federated cooperative, we are owned by other cooperatives, ensuring that our focus remains on serving the needs of the agricultural community.

LOGO

02

The red and blue ServiTech “leaf” logo takes inspiration from the “Double Circle Coop” logo created by the Consumers Cooperative Association (CCA) in 1957, which later became Farmland Industries in 1967.

It has proven to be a well designed and durable logo that can be used across a wide variety of media from large signs to favicons in the leaf-only version.

COLOR PALETTE

03

The red and blue ServiTech “leaf” logo takes inspiration from the “Double Circle Coop” logo created by the Consumers Cooperative Association (CCA) in 1957.

The red upper part and blue lower part of the leaf are a specific red and blue to match the intentions of the coop logo designer evoking the intertwined nature of member-owned cooperatives.

The specific definitions and specifications for the two main colors are detailed here for all type of media and applications.

Hex – FFFFFF
CMYK – 0 0 0 0

TYPOGRAPHY

04

HELVETICA

The popular and timeless Grotesk-style typeface *Helvetica* has served us well through the years.

We use *Helvetica Neue* in a lot of our internal forms and documents due to its readability and ubiquity across operating systems and software.

The lowercase words “servi” and “tech” in center of the ServiTech leaf are set in more recent variant, *Helvetica New* (bold) with a horizontal spacing of 32% and centered.

Our most recent marketing materials are also set in Helvetica Now giving everything a light, modern look.

Helvetica Now Light
Helvetica Now Regular
Helvetica Now Bold
Helvetica Now Black

TYPOGRAPHY

05

MONTSERRAT

The new ServiTech.com website as well as the new employee internet portal all use the open source sans serif the Montserrat typeface.

It is designed for use on digital devices to be readable at small point sizes with a variety of weights and styles to be flexible and attractive to employees and customers alike.

Montserrat is also used throughout this Brand Guideline document.
